

The multifunctional with style.

**OLIVETTI JET-LAB 490
MULTIFUNCTIONAL INK-JET FAX**

olivetti

WHEN SOME PEOPLE LOOK FOR A FAX, THEY WANT A PRINTER AS WELL. SOME PEOPLE WANT A COPIER. AND SOME PEOPLE CHOOSE THE OLIVETTI JET-LAB 490, THE PROFESSIONAL MULTIFUNCTIONAL FAX, AND PUT AN END TO ALL THEIR PROBLEMS: BECAUSE THE JET-LAB 490 IS REALLY THE IDEAL MACHINE FOR SMALL OFFICES THAT NEED INNOVATIVE SOLUTIONS. IT'S SMART, TOO, WITH SMOOTH LINES THAT ENHANCE THE LOOK OF THE WORKPLACE. ABOVE ALL, THE JET-LAB 490 IS THE PRINTING QUALITY OF OLIVETTI INK-JET TECHNOLOGY. FAX, COLOUR PRINTER, B/W SCANNER, COPIER: YOU'LL FIND WHAT YOU NEED IF YOU LOOK FOR THE OLIVETTI JET-LAB 490!

JET-LAB 490

ergonomic dedicated speed dial keys and a 2-line x 16-character display

100-sheet paper tray and 20-page feed

A PROFESSIONAL IN THE OFFICE

The Olivetti Jet-Lab 490 is the fax machine for people who want to equip their office with a device that delivers professional standards and handles all their requirements in a single solution. It features a full range of integrated, intuitive telephone and fax functions; it has ergonomic keys and one-touch dialling for frequently called numbers, which are associated with 8 keys on a separate keypad; it provides a practical hands-free capability and broadcasts from memory, enabling you, with just one command, to send a document directly or in deferred mode to 10 different numbers. Another interesting feature on the Jet-Lab 490 is the "black list", where you specify up to 10 numbers from which fax messages are not to be received, to avoid wasting time and paper.

QUALITY YOU CAN SEE

The Olivetti Jet-Lab 490 is superior professionalism and superior quality all in one. Quality that takes the form of outstanding speed and excellent printed output. In transmission mode, the 14,400 bps modem cuts the time needed to send a page to just 7 seconds. The system memory stores 50 pages, while the ink-jet printhead and 64-level greyscale ensure sharp, smooth printing. The Jet-Lab 490 also offers all the latest telephone functions, such as

caller ID and connection to an external answerphone. Paper management is of the highest standard, with a 100-sheet paper tray and 20-sheet automatic document feed.

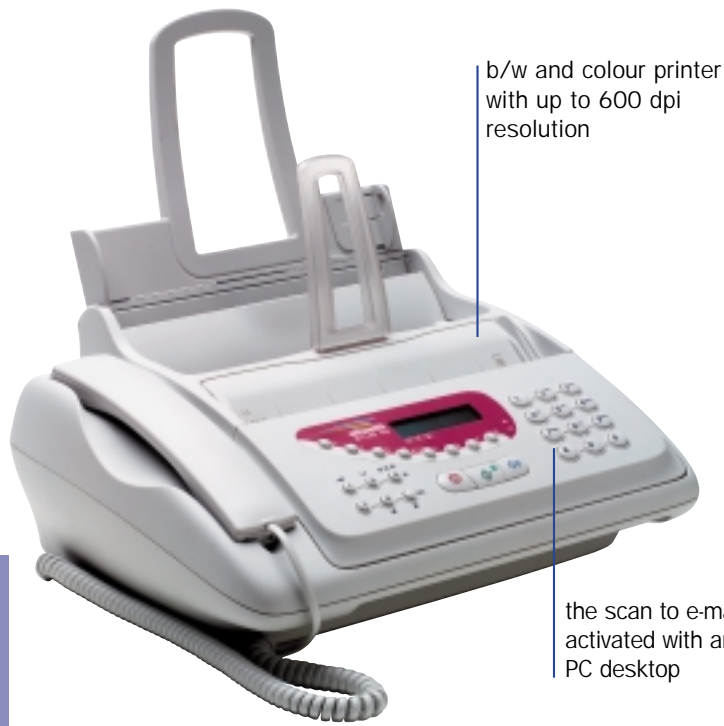

MULTIFUNCTIONALITY TO MEET EVERY REQUIREMENT

The Olivetti Jet-Lab 490 is designed for the office that wants to move with the times, which is why it offers such a broad and varied range of multifunctional capabilities. First of all, the Jet-Lab 490 is also an efficient monochrome printer with a resolution of up to 600x300 dpi. And the black printhead can be easily replaced with a colour printhead, so you can print bright, high-impact colour documents directly from your PC.

If you need to scan a document, the integrated monochrome scanner delivers image definition of 8 pels/mm. And once you have captured the document, you can forward it instantly via e-mail, with the scan to e-mail function.

INK THAT WON'T LEAVE A TRACE

Unlike thermal transfer fax systems, the Olivetti Jet-Lab 490 guarantees absolute confidentiality and operating security, because its ink-jet printhead retains no trace of incoming or copied documents. The Olivetti Jet-Lab 490: multifunctionality at your service, with complete confidentiality.
