Speed and technology.

**OLIVETTI d-COPIA 55
DIGITAL COPIER**

olivetti
@HOME @OFFICE

OUTSTANDING PERFORMANCE HAS TWO BASIC INGREDIENTS: SPEED AND PRECISION. THIS IS AN AREA WHERE THE D-COPIA 55 IS SECOND TO NONE. AN IDEAL TOOL FOR LARGE OFFICES, BANKS, POST OFFICES, GOVERNMENT DEPARTMENTS, UNIVERSITIES, THIS IS A FAILPROOF CHOICE TO ENSURE RELIABILITY AND SECURITY, OPTIMISE MANAGEMENT OF HEAVY WORKLOADS AND GUARANTEE TOP-QUALITY PERFORMANCE. COPY COST IS MINIMAL, THANKS TO THE LONG-LIFE DRUM, WHICH SUPPORTS 500,000 PAGES. THE COPY SPEED – 55 CPM – CAN BE BOOSTED TO AN INCREDIBLE 110 CPM BY LINKING TWO MACHINES IN A TANDEM CONFIGURATION. THE ABILITY TO OPERATE IN DIFFERENT ENVIRONMENTS IS MATCHED BY A FULL RANGE OF FINISHING FUNCTIONS: STAPLING, SADDLE STAPLING FOR BOOKLETS AND PUNCHING.

d-COPIA 55

Tandem configuration for 110 copies/printed pages per minute

Network links for printer and scanner

QUALITY AND SPEED: DIGITAL PERFORMANCE IN TANDEM

The vital statistics of the d-Copia 55 speak for themselves: a printing resolution of 1800 dpi! Imagine the superior quality this will give your documents: a perfect finish and outstanding sharpness, combined with the precision guaranteed by 256 shades of grey. The d-Copia 55 delivers 55 copies per minute, but if that isn't enough, you can connect two machines in a tandem configuration to reach a supersonic performance of 110 pages, almost 2 a second. A perfect solution for peak workloads.

MULTIFUNCTIONALITY: DIGITAL POWER

The Olivetti d-Copia 55 offers more than outstanding graphics. This is a fully fledged multifunctional digital system that will satisfy any requirement. The 20 GB hard disk is an extra feature to cut copy times and optimise office productivity: just store the documents you use most frequently and retrieve them locally where they can be printed and copied without having to reintroduce the original. The job-combine box simultaneously queues documents in different formats – Word, Excel or Power Point – ready to be printed. And when it works in an network environment, the d-Copia 55 also provides a dual printer scanner capability.

A SCANNER FOR EVERYONE

To make life even easier, the Olivetti

d-Copia 55 has an added extra: a powerful, high-productivity scanner, with a speed of 62 cpm. The practical Scan to PC, Scan to Email and Twain Scan network functions make this a truly up-to-the-minute development in departmental copiers.

SIMPLICITY AT A TOUCH

The Olivetti d-Copia 55 is surprisingly easy to use, because its practical console shows you how to use functions and signals any problems. And the ability to store frequently used functions makes it even easier to organise office work.

AN ENDLESS SUPPLY

The Olivetti d-Copia 55 has no problem handling heavy workloads, thanks to its optional large-capacity tray, which can hold 4000 cut sheets. Further proof of the Olivetti d-Copia 55's power is its impressive paper capacity: 3,700 cut sheets in the standard version, plus a further 4,000 sheets with the optional tray. The d-Copia 55 is also a winner with its range of professional finishing options: a multi-tray, a booklet option and a 2- and 4-hole punch.

RECORD SERVICE COSTS

Savings come naturally to the Olivetti d-Copia 55, which has a very low copy cost. Partly because the new-generation drum can handle 500,000 copies and cuts maintenance time down to just 30 minutes.

Standard paper capacity 3,700 cut sheets;
maximum 7,700 with the optional ST-11
(4,000 A4 sheets)

- 1 100-sheet front-back automatic feeder to speed-up copying jobs and scanning
- 2 Touch-screen console for easy operation of all functions
- 3 DF-610 finisher to punch, staple and saddle bind
